## DETAILED ACTION

Claims 2 and 3 have been canceled by Amendment filed on 30 October 2006.

Claim 1 has been amended by the Amendment. Therefore, Claims 1, and 4-7 are pending in this instant application.

### *Information Disclosure Statement*

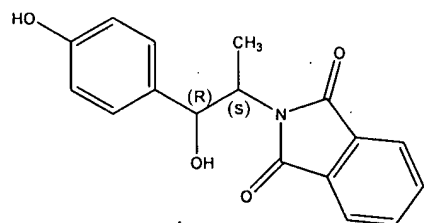

Applicant's Information Disclosure Statement, filed on 28 August 2006, has been considered. Please refer to Applicant's copies of the PTO-1449 submitted herewith.

### *Response to Amendment*

The Amendment by Applicants' representative Peter D. Olexy dated on 30 October 2006 has been entered.

### *Reasons for Allowance*

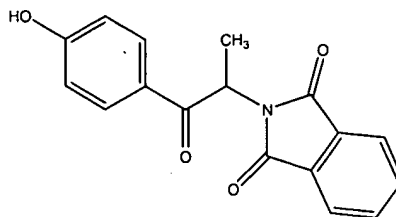

The present invention is directed to a compound of formula

disclosed in claim 1, and a method to produce the said

compound. The closest prior art of record is Muller et al., *Archiv der Pharmazie und Berichte der Deutschen Pharmazeutischen Gesellschaft*, 1968, 301(2), p161-7.

Art Unit: 1626

Muller et al., disclose a compound . This compound is distinct from the instantly claimed compound, because the prior art compound is a racemic ketone with methyl substituent at  $\alpha$ -position, in contrast to the instantly claimed compound, which is an enantiomeric pure methyl substituted alcohol with (S)-(R)-configuration at 2 and 3 positions.

The method of making claims 4-7 is supported by the instant Specification.

Therefore, claims 1, and 4-7 are allowed.
